

PARK IMPROVEMENTS

Construction of new water and sewer lines for the Kensington Cabin will be underway in February 2017 for 2-3 weeks and includes:

- brief closures of the swing set next to the cabin and the stairwell leading to Dresden Street
- work next to the Everett Street entrance to the park
- installation of tree protection measures for the walnut and sycamore trees directly adjacent to the cabin
- removal of two small trees that lie in the path of the new pipelines

Thank you for your patience.
