2) the variance is the minimum reasonably necessary to overcome any exceptional conditions; and

3) the variance can be granted without substantial impairment of the intent, purpose, and integrity of this Article. A variance decision must be based on consideration of:
a. one or more of the following elements: size, shape, color, design elements, location or cost of the sign;  
b. the compatibility of the proposed sign with the surrounding property, the proximity of other signs, and the characteristics of the area; and

2) the terms of the variance set by the Council have not been met or have been violated. The Council may establish a detailed variance application, checklist and charge fees for the consideration of variances requests.
