

Missutility.net Dial 811

The Miss Utility notification center is the approved one-call notification center for Miss Utility. Their purpose is to prevent damage to underground infrastructure by providing one-call services in those areas. We also develop educational programs and outreach intended to foster a sense of shared responsibility for the protection of underground facilities during excavation and demolition.

KNOW THE COLORS

The Nationally adopted Uniform Color Code is used to mark the approximate location of underground facilities.

The markings appear as flags, paint, or both.
